

Recurring Card Payments

Recurring credit card payments are perfect for companies who wish to automate their billing process saving time, money as it reduces customer support expenses.

Can be used for single future promise payments, or long term arrangements to settle an outstanding amount over a fixed period. Our Recurring Payment solution can be used for various business sectors and services such as housing associations, debt collection companies, insurance, finance or any company who require consumer collections.

Our cloud based application means you don't need to install expensive hardware or software to benefit from this service & you can access the system anywhere using a device friendly browser.

The Recurring Payment system can be configured to integrate with your back end office systems. We work with you in the design process to ensure your Recurring Payment solution meets all your specific requirements.

Payment information is available to you online in real time via the Payment Gateway Portal & allows you to view Call Logs, Payments, Failed Payments, Abandonments Report and process refunds.

Benefits of Recurring Card Payments:

- Payment collections 24/7
- No credit or debit card details stored on our system
- PCI DSS Compliant
- Fully automated with no staff intervention
- A fixed cost per transaction meaning no wage bills or staff issues
- Multiple payments can be processed simultaneously
- All reports automatically delivered by email or available online
- Fully customisable payment amounts

Our Recurring Card Payments can be used for various business sectors and services.
